

MARIAN
ELECTRIC YACHTING

M800
SPYDER

VISION FUTURE

Friends and guests could not be pampered and surprised in a more exclusive and beautiful way. Glide silently and powerfully over the water and enjoy the scenery in the bow of the high-end electric boat M 800 Spyder in the slipstream. This is pure relaxation and experience.

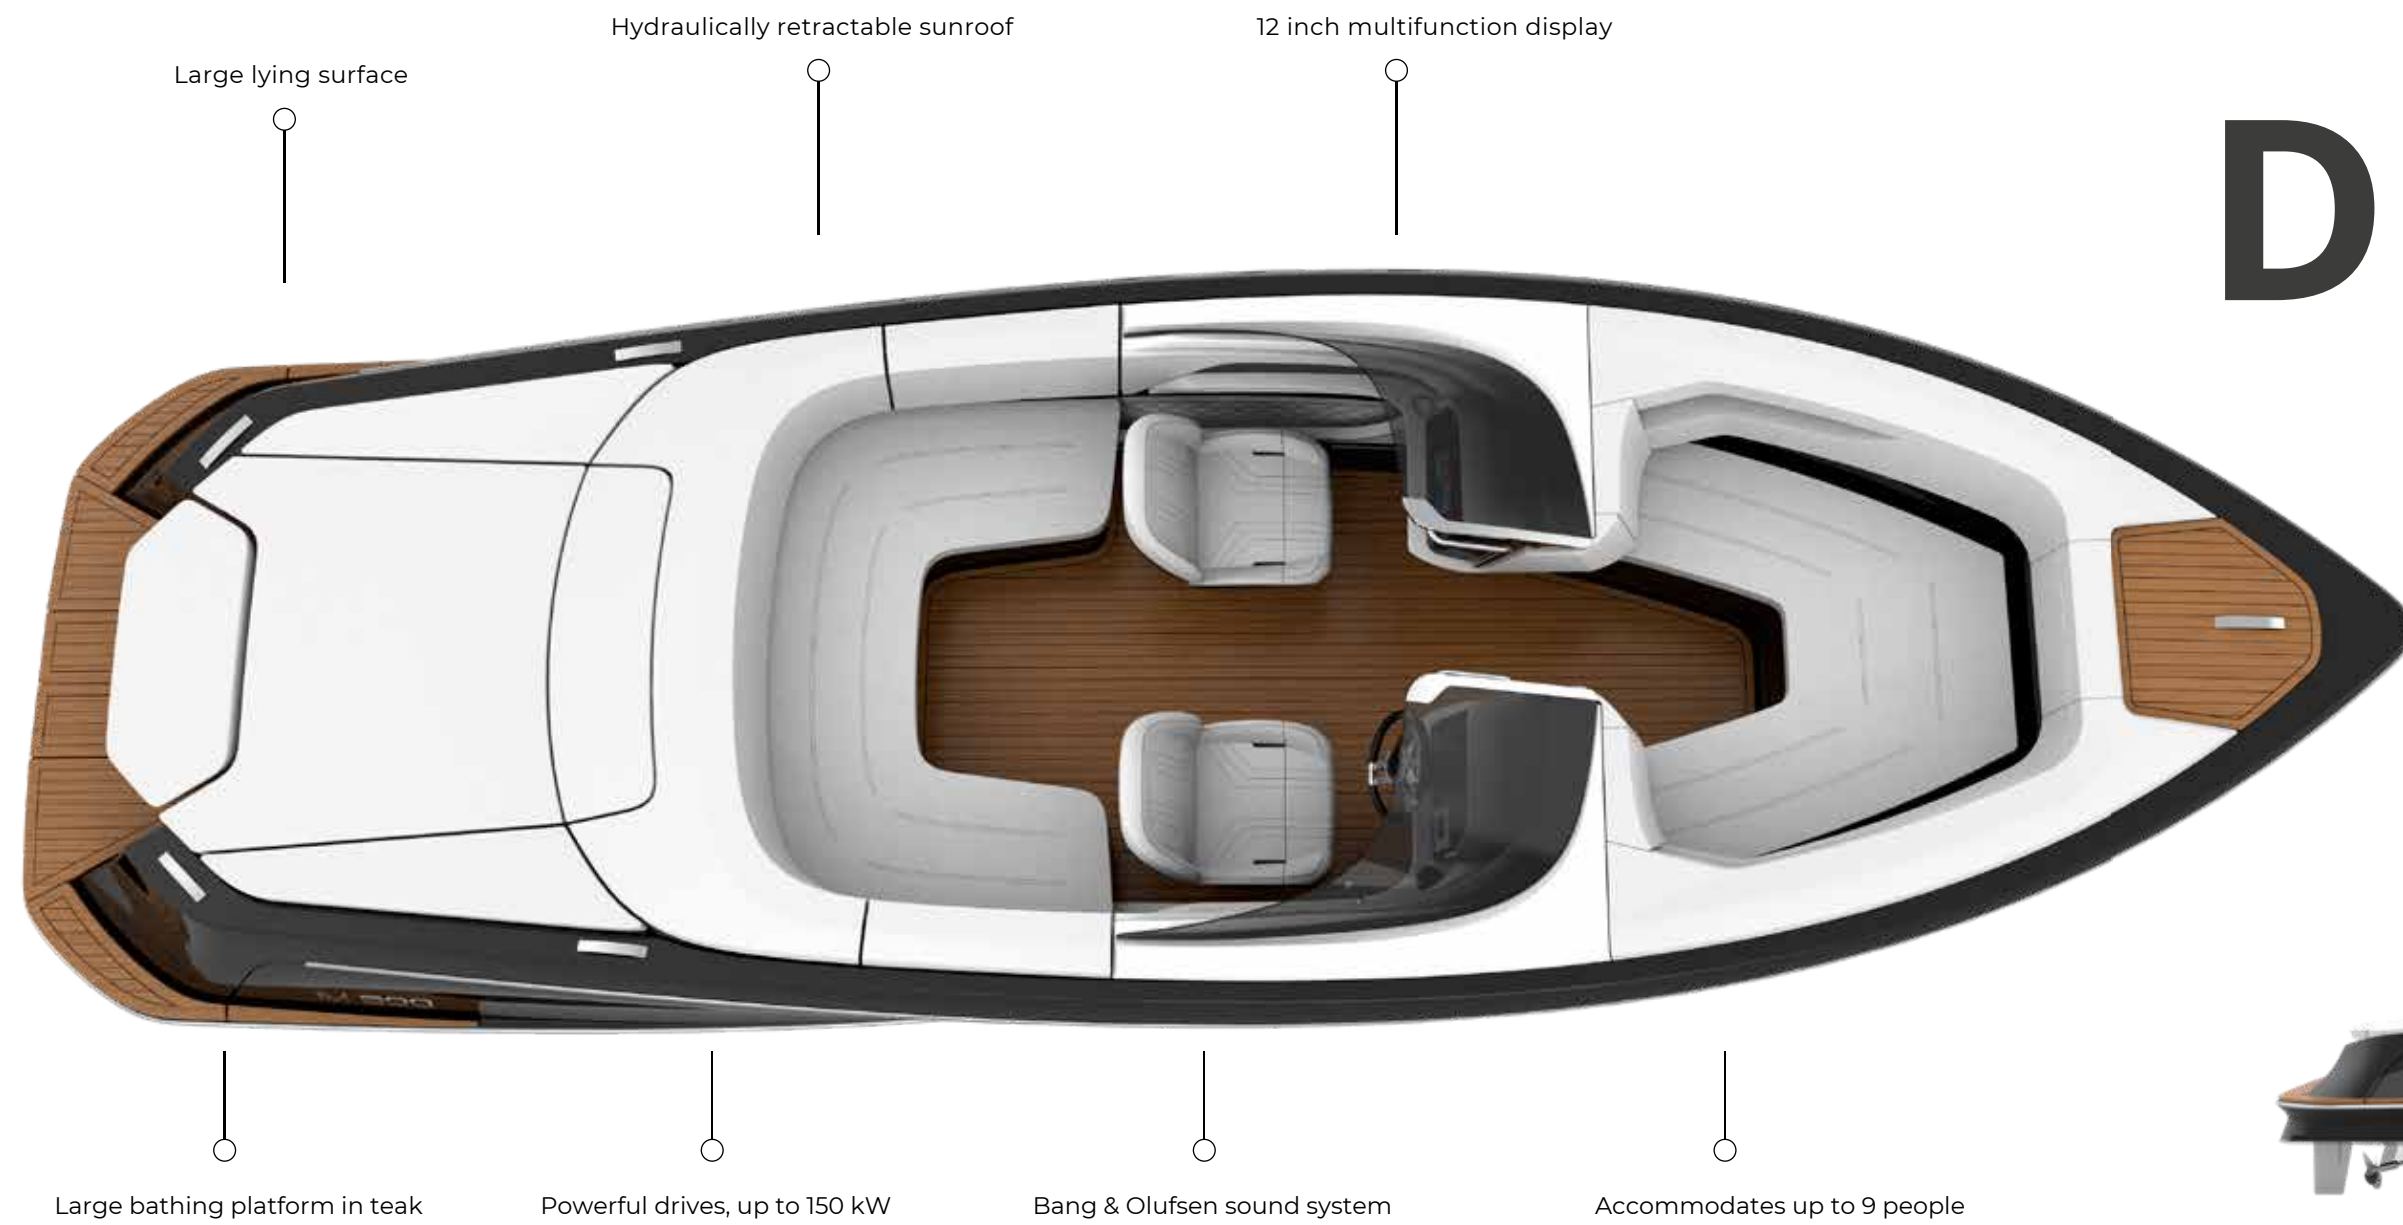

The M 800 Spyder is equipped with the latest technology and the design is also trendsetting.

It can accommodate up to nine people. In total harmony with nature. That is the aim of the Marian shipyard where the boat was built. Real craftsmanship and the love of perfection make this top boat what it is: an aesthetic powerhouse with box seats in the bow.

Technology supports the captain, design inspires him and his guests. The M 800 Spyder can be controlled via an autopilot and has a large on-board computer from which all data such as water depth, water temperature, battery charge level and much more can be read. Reversing camera and underwater lighting are the technical standard here. Every M 800 Spyder is unique. Equipment, materials and colors can be selected individually. Precious woods, leather and chrome are processed by hand.

TOWARDS THE SUN

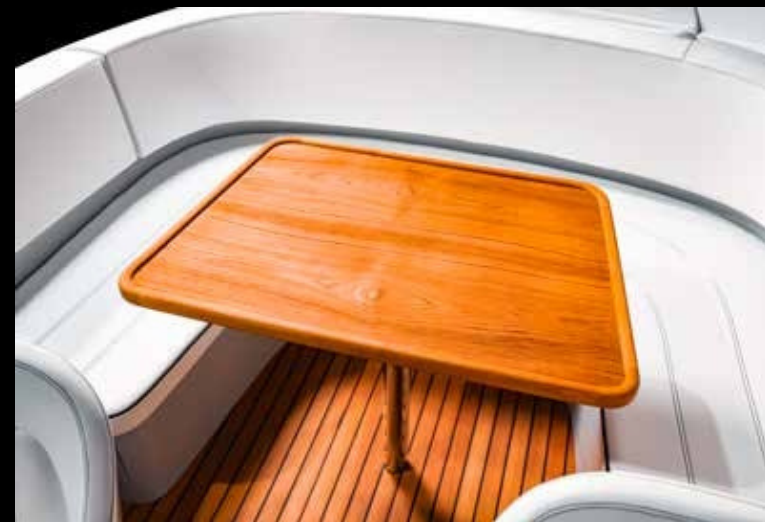

DESIGN

down to the last detail

“Form follows function”, this design principle was taken into account in the details of the M 800 Spyder. The water resistance is as low as possible, but the maneuverability is all the greater. The boat is easy to steer despite its length of 7.90 meters. The motor output of up to 150 kW enables water skiing at speeds of up to 65 km/h.

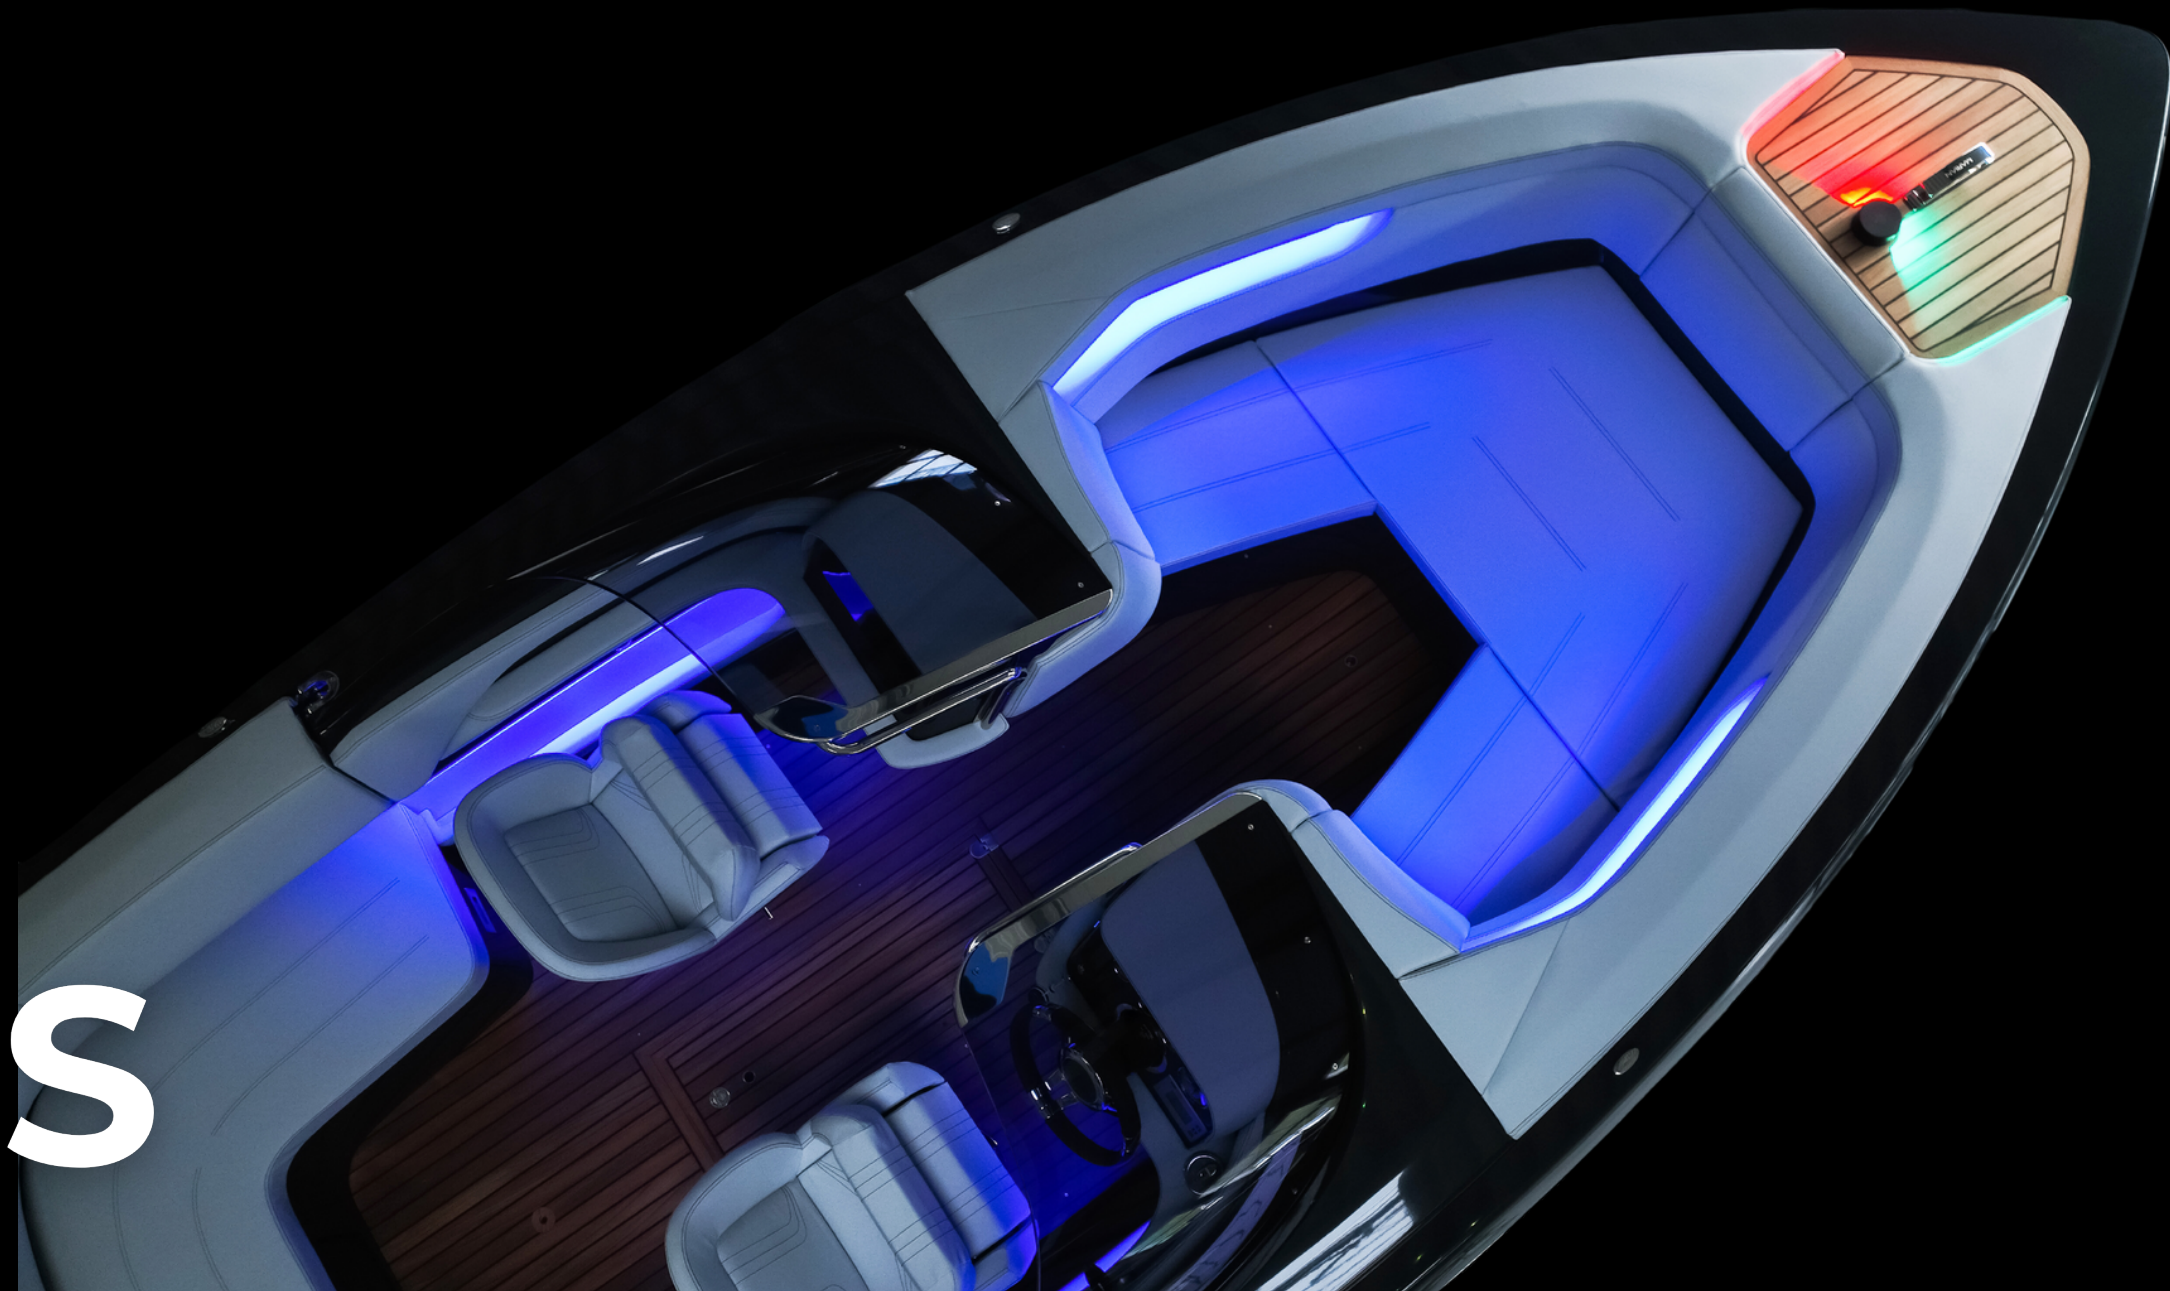

Even the retractable sunroof adapts perfectly to the shape. And the music enjoyment comes from the Bang & Olufsen sound system. Open wishes? Doesn't exist here.

M800 SPYDER

Technology that impresses

TECHNICAL DATA

Length	7,90 m
Width	2,50 m
Weight from	1300 kg
Draft	0,65 m
Persons	9
CE certification	C (Coastal waters)

MOTORIZATIONS

60 kW	E-Motor
100 kW	E-Motor
125 kW	E-Motor
150 kW	E-Motor

HIGHLIGHTS

- Board computer, clock
- GPS speed display
- bathing platform with bathing ladder
- 12 inch multifunctional display water
- temperature depth gauge
- LED ambient lighting

- Custom colors of hull and deck
- Teak on foredeck and teak floor
- cooler drawer
- Bow thruster
- Bang & Olufsen® sound system
- Electric windlass with anchor
- reversing camera
- Rudder indicator
- Autopilot
- LED bow lights
- LED underwater lighting
